

NextWindow™ Touch Screens in New All-in-One PCs from Samsung

Samsung DM-U300 and DM-U350 desktop computers now shipping in Korea

Pleasanton, CA – December 7, 2010 – NextWindow, a subsidiary of SMART Technologies, announces its touch screens are now integrated into new all-in-one (AiO) computers recently released by Samsung. The Samsung DM-U300 and the DM-U350 come with 20" (50.8 cm) and 23" (58.4 cm) NextWindow 1900 Desktop Touch display touch screens, respectively. Both AiO computers feature a simple and modern design, and are available in Korea from Samsung resellers. NextWindow has been selling to Korean electronics manufacturers since 2005, and opened an office in Seoul, South Korea, earlier this year.

The NextWindow 1900 Desktop Touch has been certified by Microsoft® to operate with Windows 7 and recognizes commonly used touch functions, such as point, click, drag and drop, and multitouch gestures, including pan, pinch, double-tap and scroll. NextWindow touch screens offer responsive interactivity, a high degree of clarity, low power consumption and superior resistance to environmental conditions. NextWindow and SMART Technologies are leading suppliers of camera-based optical touch screens. Additional information on NextWindow products can be found at nextwindow.com/products.

About Samsung

For over 70 years, Samsung has been dedicated to making a better world through diverse businesses that today span advanced technology, semiconductors, skyscraper and plant construction, petrochemicals, fashion, medicine, finance, hotels and more. Their flagship company, Samsung Electronics, leads the global market in high-tech electronics manufacturing and digital media. Through innovative, reliable products and services, talented people, a responsible approach to business and global citizenship, and collaboration with their partners and customers, Samsung is taking the world in imaginative new directions.
