
2403 Interactive Touch Panel

for LCD/Plasma

40 mm frame, USB/Serial

nextwindow™
optical touch

APPLICATIONS | DIGITAL RETAIL SIGNAGE | DIRECTORY AND WAYFINDING | CONFERENCE ROOMS | INTERACTIVE EDUCATION

NextWindow's 2403 Touch Panel turns any large display, such as a plasma or LCD, into an interactive touch screen that provides full mouse functionality—click, drag, double-click and right-click. You can control a computer application simply by touching the screen.

The 2403 Touch Panel uses NextWindow's unique optical imaging technology, which employs clear glass with no special surface coatings and therefore preserves the full clarity of the display image.

The 2403 Touch Panel can be fitted to any manufacturer's display from 33" to 65."

Features

- > Accurate touch sensitivity over the whole screen
- > Light touch—no pressure required
- > Any touch method can be used—finger, gloved hand or pointer
- > Once-only, four-point calibration, no drift
- > Serial interface or plug-and-play USB connection
- > Landscape or portrait orientation

Dimensions

Dimensions given in mm

Note: Because the inner sides of the touch panel are padded with foam to protect the display screen, there is a small tolerance in fit.

Display size		Touch overlay external		Touch sensitive area			
		W	H	X	Y	A	B
37"	Standard	928	571	978	600	900	522

Specifications

Dimensions	See the "2403 Interactive Touch Panel - Dimensions" page
Glass	Recommended 4 mm to 5 mm tempered glass Can be supplied without glass, contact NextWindow for details
Frame surface finish	Standard: silver zinc passivated then black or silver powder coated, other colours available on request
Construction	Fully welded mild steel frame
Luminous transmission	100% without glass, >92% with glass
Aspect ratio	Generally 16:9
Touch technology	NextWindow Optical Imaging—no special surface coatings
Touch method	Finger, gloved hand or any other pointer
Touch activation force	No pressure required
Touch accuracy	± 2 mm (for 40" screen) over 90% of the screen USB reported touch resolution 32767 x 32767
Touch durability	Unlimited
Touch response time	Typically 110 touches per second (9 ms) for single touch with no ambient synchronisation
Environment	Temperature Operating: 0°C to 55°C Storage: -25°C to 85°C Humidity Operating: 10% to 90% RH, non-condensating Storage: 10% to 90% RH, non-condensating
Power supply	+12 VDC, nominal (+11.5 V to +12.5 V) 250 mA rms (peaks of 1 A for 8 ms), typical at +12 VDC. Average power dissipation is 3 W Supply must be capable of providing 500 mA minimum Total noise and ripple requirement must be less than 100 mV for frequencies below 1 MHz, and less than 50 mV (p-p) for frequencies above 1 MHz (As supplied, part number 302140000. Input: 90-263 VAC 47-63 Hz. Output: +12 VDC 3.5 A.)
Reporting speed	10 ms per coordinate set (max) Typical: 50 Hz or 60 Hz reporting rate
Calibration	USB: simple four-point driverless calibration Serial: simple four-point calibration with NextWindow SerialConfig software Automatic landscape/portrait orientation detection
ESD	Per EN 6100-4-2 1995: Level 4 Contact discharge 8 kV, air discharge 15 kV on USB connector pins
Mounting	Fits plasma or LCD display with adjustable tension straps, no screws required
Interfaces	USB: 1.1 (full speed), HID compliant, plug-and-play compatible Serial: RS232 DB9 straight through cable to PC. 4,800 Baud to 115,200 Baud
Operating systems	Windows XP, Windows Vista, Win 2000, Mac OS, Linux
Software	No software required for USB. Works with Windows native HID mouse driver NextWindow Serial Runtime software required for serial interface NextWindow Touch+ software provides additional utilities
Weight	Approximately 3.5 kg without glass. From 14 kg to 20 kg with glass, depending on size
Warranty	1 year parts and labour

Note: specifications subject to change without notice.

12VDC positive centre power socket

USB Series B receptacle as specified in section 6.5 of the USB specification, version 1.1

Serial: RS232 DB9 socket
